## REMARKS.

---

First, it seems the proper thing to say that it was with much regret that your Committee was obliged to close the schools, acting under orders from the Board of Health, on account of the presence of scarlet fever in our community, but considered it the best possible move to make to prevent the further spread of the disease. The time lost should be made good to the scholar, and we hope not to have a recurrence of a similar unpleasantness.

REPAIRS. The appropriation of last year gave the Committee an opportunity of doing what for many years had needed to be done,—the laying of new hardwood floors in the Intermediate and 2d Primary Rooms in Division 1, also plastering the walls anew and putting up new blackboards. These were all needed improvements, and since being completed are appreciated by teacher and scholar. The unused balance was not sufficient to do the painting which needs to be done, consequently it was left for this year that an adequate appropriation might be made for this purpose.

Some grading and widening of concrete walk is needed to improve the general appearance of grounds

in Division 1, and a few general repairs in outside Divisions, the cost of which will not be much.

**SUPERVISORY DISTRICT.** By the provisions of an act of the Legislature of 1899, the School District has the opportunity of forming a Supervisory District with two or more adjacent towns for the purpose of engaging and employing a Superintendent of Schools, the State paying one-half the salary. It is the opinion of your Committee that such a man will help build up our schools to a remarkable degree, and reach a higher standard than they can by almost any other arrangement. This plan, while new with us here, has been tried with great satisfaction and benefit in many towns in Massachusetts, a State in which the public school system is acknowledged to be above the average.

Naturally, the cost of such an undertaking will startle some, but when it is thoroughly understood that the cost will be but little more than under the present system, it seems wise to get all the benefit possible from a small outlay of money, and make the trial.

Read and consider well the article in the warrant with reference to this matter, and when time comes to take action be prepared to do so intelligently, having in mind the best interests of our children, and give them the benefit of every opportunity.

**CHANGES IN TEXT BOOKS.** It was deemed advisable to make a change in Arithmetics, replacing the Greenleaf with a recent edition of Wentworth. The change was made this year in Division 1, and the coming year will be extended throughout the town. After this change is complete it will cost less to keep supplied with this

book, there being only two in the series, while in the one last used there were three.

CONSOLIDATION. We believe that it would be much better for the pupils of other Divisions if schools having a few pupils were closed and the pupils merged with other schools. More experienced teachers could be engaged and the pupils otherwise benefitted through associations with others.

Respectfully submitted,

ADELINE E. GOULD,  
H. WEBSTER ELDREDGE,  
WILLIAM G. WHITE,

School Committee.

## REMARKS.

---

The warrant contains an article asking for an appropriation for new seats in the recitation room in Division No. 1. The crowded condition of the Intermediate and High departments calls for something to be done to relieve this congested situation, consequently the Board thinks proper to seat the room above referred to.

This past year, owing to there being no concreters in town, the concreting and grading about the house in Division No. 1 was not done. This year the houses in the out districts need considerable grading up to where the dirt has been washed away year after year.

There are some repairs and alterations needed in the sanitary arrangement of one or two houses to insure the good health of our pupils.

There are needed in the Intermediate and 2d Primary rooms, in Division No. 1, new desks,—they are greatly needed, and must come within a short time; but if new seats are put into the recitation room, the matter of new desks in these other two departments might be laid over one year.

During the year the Board has received the sum of

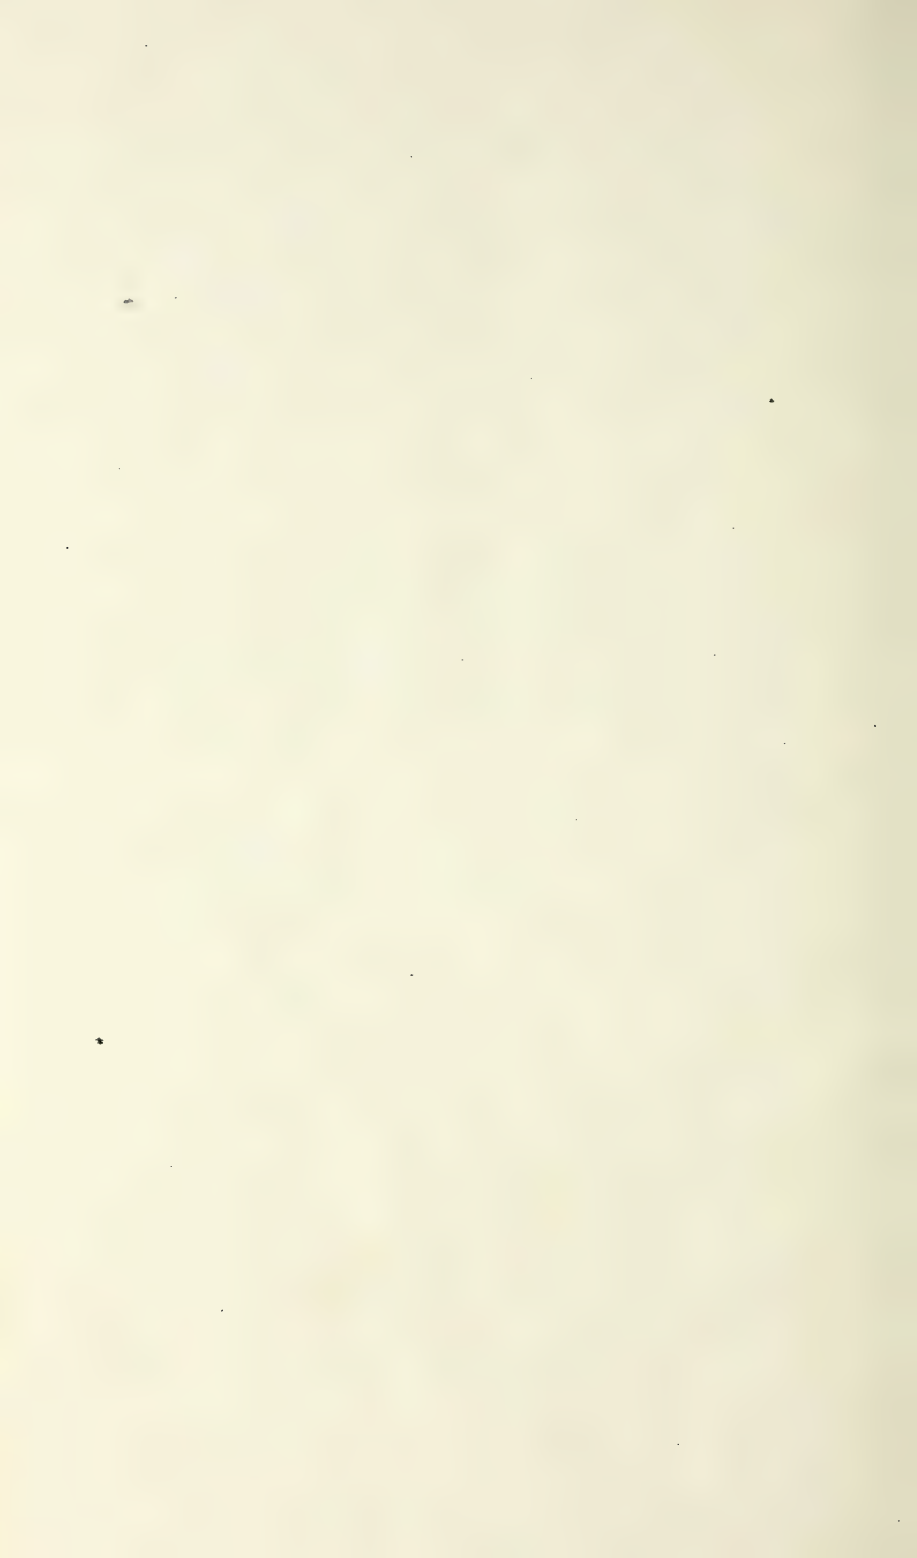

\$59.57 from the late John Shedd estate ; it was the balance of a fund left, after the death of John S. Shedd, from the net proceeds of a private high school taught by J. E. Vose, Miss Morse and Miss N. L. Allds. This was passed over to the Committee for use in the high school as in their judgment seems proper and for the school's best interest.

Respectfully submitted,

H. WEBSTER ELDREDGE,  
WILLIAM G. WHITE,  
ABNER B. CROMBIE,

School Board.

## REMARKS

---

The past year has seen some changes in our Schools, and much has been done along the line of improvement in the environment of the scholars and in the systematic Course of Study which went into effect last Fall.

Under an act passed by the last Legislature our High School was placed in the approved list, which enabled it to receive pupils from other towns whose tuition should be paid by the State. This necessitated rearranging and adding to our Course of Study in both the Grades and High School, to conform with the requirements laid down by the Department of Public Instruction.

Pupils taking the Classical Course in the High School, on being graduated, will now be prepared to enter College.

New desks have been needed in the Intermediate and Second Primary rooms in Division No. 1 to replace the old-fashioned double desks put in 30 or 40 years ago.

The Laboratory in Division No. 1 was left unfinished when the improvements were made some years ago,

which makes a bare and undesirable class-room, and an appropriation is asked for to finish off that room.

Grading has been done about all the School buildings and the improved appearance has been much commented upon.

Hitching posts and a landing platform have been placed in front of the building in Division No. 1, a convenience which is much appreciated. The walk in front of the School House needs widening which will be done as soon as the concreters come into town.

## REMARKS.

---

As is well known by almost everyone, it takes about double the time to run a furnace with wood as with coal, to get the same amount of heat; we only make this statement to explain the additional sum of money paid for the services of janitor in Division No. 1; also that we consider ourselves fortunate to be able to run the schools during the cold winter weather, when many schools in different places, owing to lack of fuel, were obliged to close for a certain length of time during the most severe weather.

The concrete walk from street to school house has been widened one-half. The laboratory has been finished and is a neat and commodious room, making quite an accession to our school facilities.

Every department is filled, and judging the future by the past, greater facilities will be required before long.

We understand that the Methodist Church property will soon be in the market, and owing to its close proximity to the schools, it seems to us it would be wisdom on the part of the district to take some measures to procure this property.

Two school houses in town are unoccupied with little apparent use for them in the future:

A. B. CROMBIE,  
D. W. COOLEY,  
H. W. ELDREDGE,

School Board of Antrim.

## REMARKS.

---

Our schools are nearly all closed this year except the village schools at the time of rendering our annual accounts.

Last year so many of our schools were in session that three or four hundred dollars of the money reported on hand was required to complete the term's work, and between three and four hundred dollars more was used to put new seats and desks in the 2d Primary and Intermediate rooms.

Two schools in the out-districts, one at the Pond and one at the Centre, have been re-opened. Another teacher and another room is in demand for Division No. 1.

It looks as if more money would have to be raised this year.

The committee appointed at the last annual school meeting to examine into the existing conditions, with reference to purchasing additional grounds and building for the use of the schools in Division No. 1, we understand will report at this meeting.

There are on hand and ready for shipment quite a

large lot of old and worn-out books, which will soon be returned to the publishers who will allow us a credit on them when purchasing new books.

As the Village schools were in session when report was made up, it was impossible to print a complete list of perfect attendance.

## Report of Overseer of the Poor.

---

In making out my report for the past year, I will say that I have made thirty-seven special visits, traveled 380 miles, guaranteed \$152 00 worth of bills (which have been satisfactorily settled without expense to the town) and have not used all of the Saltmarsh fund. I have tried to be humane to the people that have received assistance, and have tried to save the town all the expense that I could.

Some people think that the Overseer of Poor should pay something for the job, but I assure you that I have earned my money this year.

The County is wholly caring for James Cuddihy. Since April 1st Arthur Curtis is boarded at Grasmere at the expense of his guardian; the County will not do business with individuals, but prefer to do it through the towns, hence his account is in my report.

I take this opportunity to thank all that have given on papers in order to keep several from coming on to the town.

## REMARKS.

---

By reference to the financial statement on the preceding pages, it will be seen that the expenditures on account of High School during the past year amounts to \$1,710.30. This does not correctly represent the cost of maintaining the High School for the year, as approximately \$300.00 of the \$1,403.25 paid teachers, was for services rendered previous to the close of the winter term in 1904.

For the year ending in June, 1905, the salary of of High School teachers will be \$1,287.00, or \$116.25 less than has actually been paid out during the year ending Feb. 15, 1905. At the close of the present Winter term, there will be due teachers, \$178.25, which must be paid from the 1905 appropriation.

We are of the opinion that the yearly appropriation should be made to cover all expenses to the close of the winter term. This can be done by reducing the length of the school year, lowering the salaries of the teachers, or by appropriating an additional sum to cover present deficiency.

There are at present five pupils attending our High School from out of town, from whom we receive tuition of \$10.00 a term. We can only hope to increase, or maintain this number, by keeping up the standard and length of our school.

The School Census of October, 1904, shows that we have 234 school children in town, between the ages of 5 and 16 years. We have carried scholars from Division 7 to Division 1; from Division 6 to 2; from Division 5 to 3; and are also carrying children to Division 4. While the expense is considerable, it is less than it would cost to maintain schools in these divisions.

We are gratified by the interest displayed by the parents and others in the schools, as evinced by the large number of visitors, and invite suggestions and friendly criticism from all who have the good of the schools at heart.

CHARLES F. BUTTERFIELD,

HENRY A. HURLIN.

The library is well patronized, over one hundred books are circulated through the town each week. A large number of books, chiefly of a scientific and historical nature, have been loaned the teachers in the several schools the past year to aid in supplementary work, and it is greatly desired that more of such volumes be placed in our library.

During the next year two hundred volumes at least need re-binding. It is now eight years since our last library catalogues were published, and during this time a large number of books have been added to the library. It would be very gratifying to the patrons of the library if new catalogues might be issued the coming year. It is earnestly hoped that sufficient means may be appropriated this year to permit of these requests which we consider so necessary to the welfare of our Public Library.

## Remarks of School Board.

---

Inasmuch as the District Superintendent has treated the subject in such an exhaustive manner it will be unnecessary for the School Board to add much regarding the conditions and needs of our schools. Suffice it to say that we believe real progress has been made during the past year and that it is the desire and aim of all connected with their management to achieve greater successes in the future.

Much credit is due Mr. Newell for his efforts in securing funds sufficient to repaint and thoroughly renovate the High school room and thanks are due him and all others who assisted in transforming this room from what it was to what it now is without cost to the district. In this connection it may be said that the entire building needs painting inside and out, with the exception of the High school room, and we think it will be wise to appropriate a sum sufficient for the purpose this year.

It will be seen that we have closed the fiscal year with a balance on hand but it must be remembered that the schools have been closed earlier than anticipated owing to the prevalence of measles and it is intended to increase the length of the spring term as much as the winter term has been cut short, consequently much of the balance will disappear before another appropriation will be available. If as now seems probable it becomes

necessary to maintain schools at the Pond (Div. 6) and at the Branch (Div. 3) the coming year our expenses will be increased proportionally. Again while we have received State aid for several years there is no surety that we shall receive it this year and probably we would not should our appropriations be reduced. Therefore we recommend that a sum at least equal to last year be raised for District Schools.

While the sum expended for books and supplies is less than the amount appropriated for the purpose we could have spent more to good advantage. Many of the books now in use are in bad condition and the best good of the schools requires that a somewhat larger sum be expended during the coming year.

Our High school is doing good work. The present standard cannot be maintained with any less sum than that raised last year.

Respectfully submitted,

CHARLES F. BUTTERFIELD,  
HENRY A. HURLIN,  
J. ELROE PERKINS,

School Board.

## Report of the Superintendent of Schools.

*To the School Committee of Antrim, N. H.:*

It is my pleasure to submit to you for your consideration the first report from this office upon the condition of the public schools. Embodied herewith are the usual statistical tables and some recommendations and suggestions concerning your future policy.

STATISTICS—Population of Antrim (estimated) 1350. Number children between ages of five and sixteen years, October, 1904, 234. Whole number of pupils enrolled for year ending June, 1905, boys 155; girls 142; total 297. Under six years of age, 17; over sixteen, 28; between six and sixteen, 252; average membership, 254.6; average attendance, 237.1; percentage attendance to membership, 93.

September, 1905, there were 260 pupils in the schools. They were distributed as shown in the following table:

Grades,	I	II	III	IV	V	VI	VII	VIII	IX
Number,	29	25	31	20	28	21	23	18	29
High School,				X	XI	XII	XIII		
Number,				9	7	12	8		
Total, 260									

The foregoing shows 36 pupils in the High school and 29 in the Ninth grade which is properly High school work. A total of 65 are virtually taking advantage of High school instruction or 25 per cent. of all pupils enrolled. This is very creditable. The last state report shows that about 6 per cent. of the pupils in the state attended High school. Another year the percentage of attendance should be even better than this year.

The following tables show the attendance record of the several schools for the school year ending June, 1905, and the summary of the schools' attendance from September, 1905, to February 10, 1906 :

---

Attendance from September, 1904, to June, 1905.

---

Name	Average Membership	Average Attendance	Per Cent.
High School	42.9	40.9	95
Grade IX	11.2	10.6	94
Grades VIII-VII	40.1	37.8	94
Grades VI-V	32.3	31.1	96
Grades IV-III	38.4	35.7	90
Grades II-I	35.7	32.1	90

West School	9	7.1	86
East School	10.3	8.6	88
Branch School	7.5	7.1	94
Totals	254.6	237.1	93

---

During the year there were 39 reported as having not been absent nor tardy. Total number of tardinesses, 978; visits by the Committee, 88; by the parents and others, 809.

Summary of attendance from September, 1905, to February, 1906. Enrolled, 267; average membership, 251; average attendance, 238; per cent. attendance, 94.8.

During this period there have been recorded 391 tardinesses; 42 visits by Committee; 358 visits by parents and others; and 102 visits by the Superintendent of Schools.

Table of Teachers Employed, 1904-1905.

**FOREWORD**—It is less than six months since I assumed the duties of this office. My time allotment is one day each week. This is not sufficient for me to wisely determine the condition of your schools a year ago, nor have I been at work a sufficient length of time to understand the obstacles you have encountered which have militated against a fuller realization of your plans for the schools. All that I can here do is to report the condition in which I found the work and make such recommendations as may tend to bring the most efficient instruction and the wisest administration that your town may hope to give to the men and women of the future.

There are weaknesses which must be strengthened. There are before us possibilities and impossibilities, perhaps. In what I shall say I will look into the future and in so doing there shall be no intention to disapprove the efforts of the past. The past is gone, and before us is the hereafter. From the days bygone we may draw lessons to guide us in the future. Then with this understanding permit me to speak unconstrainedly of the needs of your schools.

**COURSE OF STUDY**—Soon after the opening of school I placed in the hands of each teacher a Course of Study as prepared by the State Department of Public Instruction. Each teacher was directed to follow the course and to adjust her work thereto as rapidly as her limitations would permit. The course is well adapted to the schools in New Hampshire. The Course provides for an elementary training of eight years instead of nine according to our present regime. In order to work upon this basis there will needs be a change in our scheme.

**ENTERING AGE**—Your superintendent has sent out to every superintendent in the State a circular letter secur-

ing opinions of our leading educators as to the advisability of permitting children to enter school at five years of age. The returns are interesting. Twenty-two responses came and twenty replied that eight years were sufficient to prepare pupils for High school if they entered not younger than six years of age. One thought that with a good course they could be fitted in that time if they entered at five. Fifteen of the number believed that six years or more should be the entrance age. When it is considered that ten of these are superintendents of cities where the home life of the children is not so good as that of our rural communities, these results should bear weight. Fifteen reported that they had a nine year course but only four of these stated that they advocated such. Because of this consensus of opinion I recommend that you make the entrance age six years.

**NINTH GRADE**—This will do away with the Ninth grade and the instruction which now falls upon the over-taxed grade teachers will be placed upon the High school corps. This will save to the town the instruction of one whole year and furthermore it will be a saving of a number of years in the lives of your children, no inconsiderate item.

**HIGH SCHOOL**—But not alone would the elementary grades profit. It would benefit the High school as well. Our youth would be stimulated to continue longer in school. That child who ends thon's education with the Grammar grades will surely find an up-hill fight in this age of industrialism. The times of our fathers have passed and the successful man of the future will be the one whose every avenue of resource has been cultivated. Our High school is certainly engendering a right spirit and it has been a great pleasure to me to note this

among the students. A student atmosphere has begun to develop and I trust its growth will not stop in the near future.

**DRAWING**—There are a few things that I might suggest in the hope that they may be discussed, if not for action soon, perhaps later. Drawing and Music should hold a place in your course. Especially should the former secure a considerable part of the time of the curriculum. It would be the first stage of a Manual Training course. It is not urged from the utilitarian side that is, I do not intend to convey the thought that a large per centage of pupils will become artists and thus need this instruction. Nor do I claim that a large percentage of your children will ever become Arithmaticians, Historians, Grammarians and the like, yet these subjects are the avenues through which the after life is enriched, and Drawing should be included in the number.

**MUSIC**—Music is another neglected subject but I do not consider its absence from the work so serious a defect as that of drawing. It must be admitted that it does fulfill a part in our social life of no mean value, and therefore should receive our consideration in the work of the schools.

**TEXT BOOKS AND SUPPLIES**—The greatest hindrance that we have labored under has been in the way of books and supplies. There is hardly one fourth the books being used at present by the pupils that are fit from a sanitary and ethical standpoint to be thrust into the hands of a child. To give the schools the proper efficiency I do not see how the work can be done on less than \$400 for books and supplies. We have a good corps of teachers, pupils of at least average ability, but workmen and stock are of no avail unless the requisite tools are forthcoming.

MEASLES—On account of the prevalence of measles the schools were closed February 13, a number of weeks earlier than scheduled by the school calendar.

CONCLUSION—In summing up what I have said it will be noted that my recommendations include the following :

Raising of the entering age to six years.

Establishment of an eight year elementary course as per recommendation of the State superintendent. Incidentally as a result of this a school year of 35 or 36 weeks.

The absorption of the Ninth grade by the High school.

That a sufficient allowance be made for text-books and supplies.

In addition to the foregoing I have suggested for discussion the need of providing some instruction in Drawing and Music as soon as the sentiment of the community may demand it.

It is fitting for me to state here that my work in your community has been pleasant. That I have reason to thank you, members of the Committee, for that measure of confidence that you have seen fit to place in me and for the individual and combined help you have extended toward making this new work among you as successful as the limitations would permit. That the teachers have willingly tried my suggestions and endeavored to help me in the plans I have brought to their attention. That the pupils of the schools have graciously shown me uniform courtesy. That the citizens whom I have had the pleasure to meet have been cordial and friendly. Thus withal has my work been pleasant among you and I trust has been also fraught with a degree of good to the schools.

Cordially submitted,

HERVEY LUCIUS WOODWARD.

## **Annual Warrants.**

## Town Warrant

You are hereby notified to meet in the Town Hall, in said Town, on the THIRTEENTH DAY OF MARCH, 1906, at nine o'clock in the forenoon, to act on the following subjects:

- 1—To choose all necessary Town Officers, Agents and Trustees for the year ensuing.
- 2—To hear the report of the Auditors on the Treasurer's account and act thereon.
- 3—To see how much money the Town will appropriate for the support of Schools for the year ensuing.
- 4—To see how much money the Town will appropriate for the Antrim Free Library.
- 5—To see if the Town will appropriate Fifty Dollars to assist Ephraim Weston Post, No. 87. G. A. R., in properly observing Memorial Day.
- 6—To see what action the Town will take in regard to street-lighting and appropriate money therefor.
- 7—To see if the town will vote to have the Invoice and Taxes printed for the ensuing year, with the valuation of each lot of real estate printed separately, and appropriate a sum of money therefor, or take any other action thereon.
- 8—To see how much money the Town will vote to raise to repair roads and bridges the year ensuing.

9—To see what action the Town will take in regard to the bequest and devise made to said Town by Section 12 of the will of James A. Tuttle, late of said Antrim deceased, which section reads as follows :

“12th. All the rest and residue of my estate, both real and personal, I give, bequeath and devise to said town of Antrim in trust for the establishment and maintenance in said Town of a free public library, to be known as ‘THE JAMES A. TUTTLE LIBRARY,’ and said Town shall expend such portion of the same as it shall deem necessary for the purchase of a suitable site and the erection of a suitable library building thereon; and the balance shall be kept intact by said Town, and the income of the same expended annually in the purchase of books and the care and maintenance of said library : Said Town shall also make all necessary rules and regulations and choose all necessary officers for the proper government of said library.”

To choose all necessary officers and agents, and pass any vote relating thereto.

10—To see what action the Town will take in regard to accepting the clock now in the tower of the Presbyterian church and pass any vote relating thereto.

11—To see if the Town will authorize the Selectmen to contract with some person to revise and re-publish the History of the town of Antrim, or give the privilege to private parties to use what material they may own, or take any other action thereon.

To see how much money the Town will appropriate to carry the above article into effect.

12—To see if the Town will vote to raise the tower of the Town Hall to sufficient height to accommodate a Town Clock.

To see how much money the Town will appropriate to carry the above article into effect.

- 13—To see if the Town will vote to allow the South Antrim Village Precinct to place a bell in the tower of the Town Hall for a fire alarm.
- 14—To see if the Town will vote to raise and appropriate the amount of money necessary to secure State aid for the permanent improvement of highways under the law passed at the January Session, 1905.
- 15—To see if the Town will vote to reconsider Article 12 of the Warrant of 1905 in regard to State aid for highways, or take any action thereon.
- 16—To see if the Town will vote to raise a certain per cent. on the valuation to defray town charges, pay existing debts, to cover all appropriations made by the School District, and to carry the above articles into effect.

Given under our hands in said Antrim, this twenty-third day of February, 1906.

WARREN W. MERRILL,  
GEORGE F. LOWE,  
Selectmen of Antrim.

W. E. CRAM,

Auditors.

Antrim, N. H., Feb. 18, 1907.

## REMARKS.

Since our last Annual Report the School House in Division 1 has been painted inside and out, with the exception of the High School room.

The Heating Apparatus which for several years has been unsatisfactory gave out entirely soon after the commencement of the fall term and it was deemed advisable to replace it with a new up-to-date Pratt & Walker Steam Heater similar to the one in the Town Hall, at a total cost of \$451.00. As the law limits the use of money appropriated for school purposes, which can be used for repairs to 5 p. c. and practically that amount had been used for other necessary repairs, in accordance with authority given us at the special school meeting held December 8, 1906, we borrowed the money, to pay this bill, from the town giving a note of the District at 3 p. c. interest.

This Heater is of sufficient capacity to heat the building easily and should do good service for many years.

It will be necessary to shingle this building soon, otherwise it is in good condition.

The School Houses in Division 4 and 5 have been shingled. That at the Branch will probably have to be shingled this year.

All the School Houses outside of the Village need painting.

H. A. HURLIN,  
J. E. PERKINS,  
C. F. BUTTERFIELD,

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

### *Members of the Board:*

It is my duty to submit to you a brief report upon the schools since coming under my supervision.

In all, four new teachers were secured for the schools of the town, three in the village school and one at the Center. The latter has recently resigned to accept a position in Massachusetts at an advance in salary of about twenty-five per cent. It will thus be necessary to secure a new teacher for this school in the spring.

A new course of study for the High School outlined by the Principal and approved by the State Superintendent went into effect in September. The work in the grades is now being organized and will probably be ready for the approval of the Board in the Spring.

The total number of pupils registered in the Fall term was 233; and of these 39 were in the High School.

A word of approval should be given for the great improvement in the village school caused by the thorough renovation last summer. Nothing contributes more to a respect for and pride in their surroundings on the part of pupils than to have these surroundings properly kept. A well ordered school in a dilapidated building is well nigh an impossibility.

The need of a longer school year in the grades is very pressing. The amount of money needed to give three weeks

more of school in all grades below the High School would be raised without any taxpayer feeling it in any distinct degree. It is the general feeling among the grades that the work of the entire year just falls short of being satisfactory because of this lack. The amount necessary to put the five upper grades in the village school upon a somewhat satisfactory footing in this respect would be about \$100. I have confidence to believe that the great majority of tax payers would willingly pay this to feel that their graded school was on a par, as far as length of schoolings is concerned, with other progressive towns of similar character.

The first four grades do not feel this lack as much as the others. In fact for younger children the terms should be somewhat shorter.

A bill now pending in the State Legislature contemplates the State certification of teachers. Such a method of certification would secure teachers of higher training than is required at present and consequently would advance salaries. However this would not seriously affect our schools, and would apply to only two at least as now consolidated. I heartily approve of the economy secured by this consolidation and trust the policy will receive the hearty support of the townspeople.

I wish to express my appreciation to the citizens for their interest in the schools, to the teachers for their willing co-operation, and to the Board for their helpful advice and suggestions in all school matters.

Respectfully submitted,

F. C. JOHNSON.

During the past year the Library has been well patronized and a larger number of reference books have been loaned the schools than in previous years. Over 100 books have been taken out each week. About 75 new books have been purchased by the library trustees and a generous gift of valuable books was received from one of the citizens of the town. The greatest need of the library at the present time is more reference books and it is earnestly desired that the town will think best to increase the appropriation this year so that more books of this kind may be added to our library, a set of encyclopedias, of standard work and up to date, is much needed and would be greatly appreciated. The library was never in a more flourishing condition than at the present time.

Antrim, Feb. 15, 1908.

## REMARKS.

During the year just closed, all school houses in Town outside the village have received one coat of paint and that in District 2 has had two coats. There is a sufficient sum of money left from the appropriation voted last year to give the remaining houses the second coat, which should be done during the summer vacation.

The school houses in Districts 1 and 3 will have to be shingled this year. Other than shingling there are no unusual repairs now needed.

The note of \$451.00 held by the Town against the School District has been paid, and there are now no outstanding obligations.

It is believed by the Board that there has been an improvement in the general tone of our schools during the past year.

Respectfully submitted,

J. E. PERKINS,  
C. F. BUTTERFIELD,  
H. A. HURLIN,

*School Board of Antrim.*

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

### *Members of the School Board:*

I submit herewith my second annual report, which is the third annual report of the Superintendent's office.

Besides general help given to the teachers and other routine duty, I have tried to secure two aims, greater efficiency in the work of the schools and the greatest possible return for money expended in text books and supplies. To accomplish the first purpose I placed in the hands of each teacher an outline of the text books to be used. This helped especially in the use of supplementary reading. To accomplish the second purpose I made an inventory of all the books in our possession and a list of the students in each grade as far as this was possible. I then recommended for purchase only those books which seemed most necessary for our work and which will be usable until worn out. At present we are better supplied with text books that are actually being used than at any time during my term of office.

Physics apparatus as demanded by the State Superintendent has been added to the High School. This will need only slight additions from time to time after the purchase of the rest of the list. Our High School course has been rearranged a little, so as to bring it more in the line of college preparation, as well as making it a more definite course for general training.

We have had the usual number of changes in

teachers, but have been fortunate enough to secure those with at least successful experience, and in several cases those with normal training as well.

The large increase in the valuation of the Town over the previous apportionment has taken us out of the list of towns receiving the Equilization Fund. Supt. Morrison's explanation of this was published in our local paper recently.

By the willing co-operation of the teachers, together with a small expenditure by the Board for books, systematic training in music has taken the place of the work previously done in this branch. I am very glad to report that private munificence makes it possible to secure a supervisor for this work during the rest of this year. This timely help will strengthen not only this subject, but through it all the instruction given. I wish to express my appreciation of the generous encouragement thus given us.

I hope that in the near future some similar organization will take place of the drawing now given as a necessity in connection with other work which it helps very materially.

The short space available for the Superintendent's report compels me to omit many details that might naturally be expected. I shall be glad, however, to discuss any feature of the school work with any one who may have questions about it.

During the fall term there were 241 pupils enrolled in our schools, with an average attendance of 94.3 per cent. Of this number 35 were enrolled in the High School.

I wish to heartily commend the policy pursued by the Board toward the Superintendent and his recommendation for the schools. I am always willing to let my recommendations stand or fall on their merits, as seems best to your

body. Your policy has always been such as is recommended by educators as essential to the efficiency of the schools.

I thank the teachers for their co-operation and commend them for their efficiency.

To the townspeople who bear the expense of the schools I give only praise for their earnest endeavor to give of their means for the training of the coming generation.

I submit herewith the report of the Principal of the High School and the following statistics:

MR. F. C. JOHNSON, *Superintendent*:

The work of the High School seems to be progressing well, considering our limitations. The attendance is good and the pupils for the most part apply themselves with commendable zeal and purpose.

The courses of study as now arranged include a Classical and a Scientific Course. The former meets the requirements of the State Department; both are intended to meet the needs of the community. We enjoy certificate privileges with some half dozen New England colleges and normal schools.

We can never do, however, as efficient work as we should without another recitation room. The laboratory accommodates small classes, but is ill suited for large ones. There is no vacant room available for recitation purposes, but this end might be secured by removing pupils of the ninth grade to the High School room. The room thus left vacant could be used for recitations, and this change would secure greater unity in discipline and educational purpose of the school.

Pupils of the ninth grade coming in direct contact with the mature pupils of the High would earlier learn habits of study and self-control. The teacher of the ninth grade and the teachers of the High School would be able to co-operate more to their mutual advantage and to that of the pupils. The High School room is sufficiently large, is well lighted and well ventilated. The change could be effected without

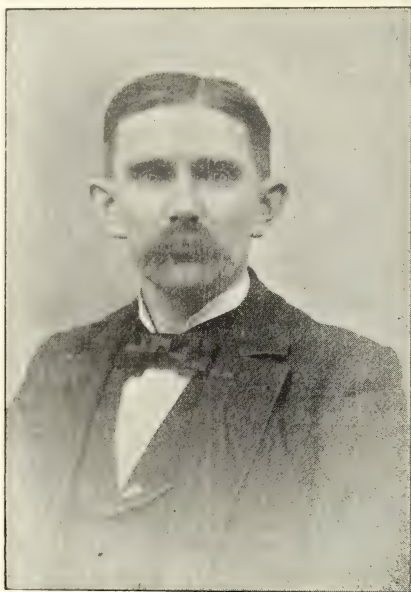

cost. A convenient recitation room is a very great factor in the educational efficiency of a school.

We are indebted to our janitor for the consistent and painstaking manner in which he has cared for the building and to the excellent work of the several teachers for the general good order that has been maintained.

G. GORDON NEWELL, *Principal*.

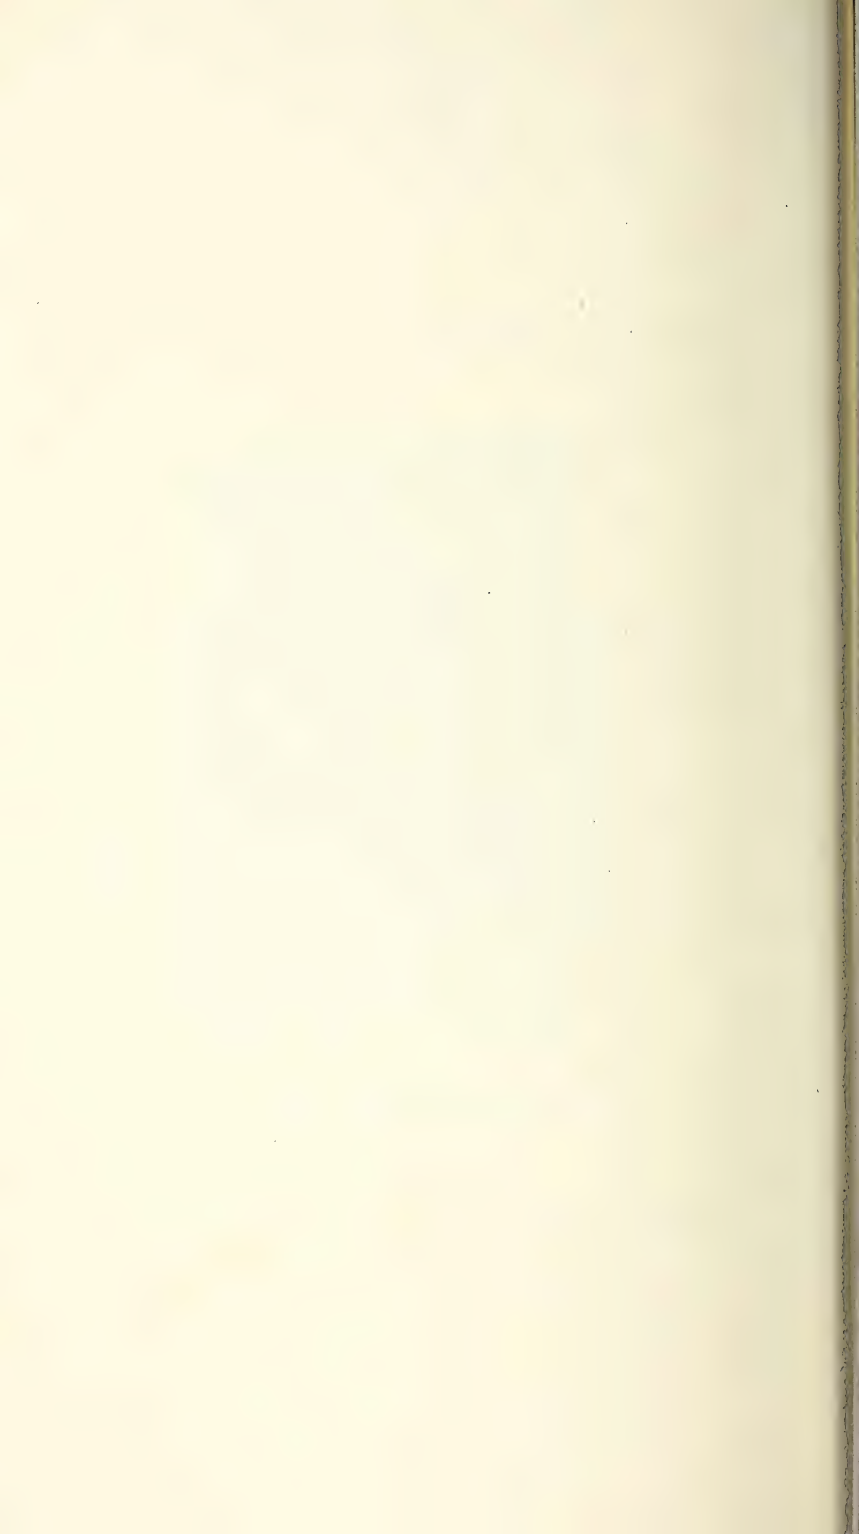

JOHN A. BALCH

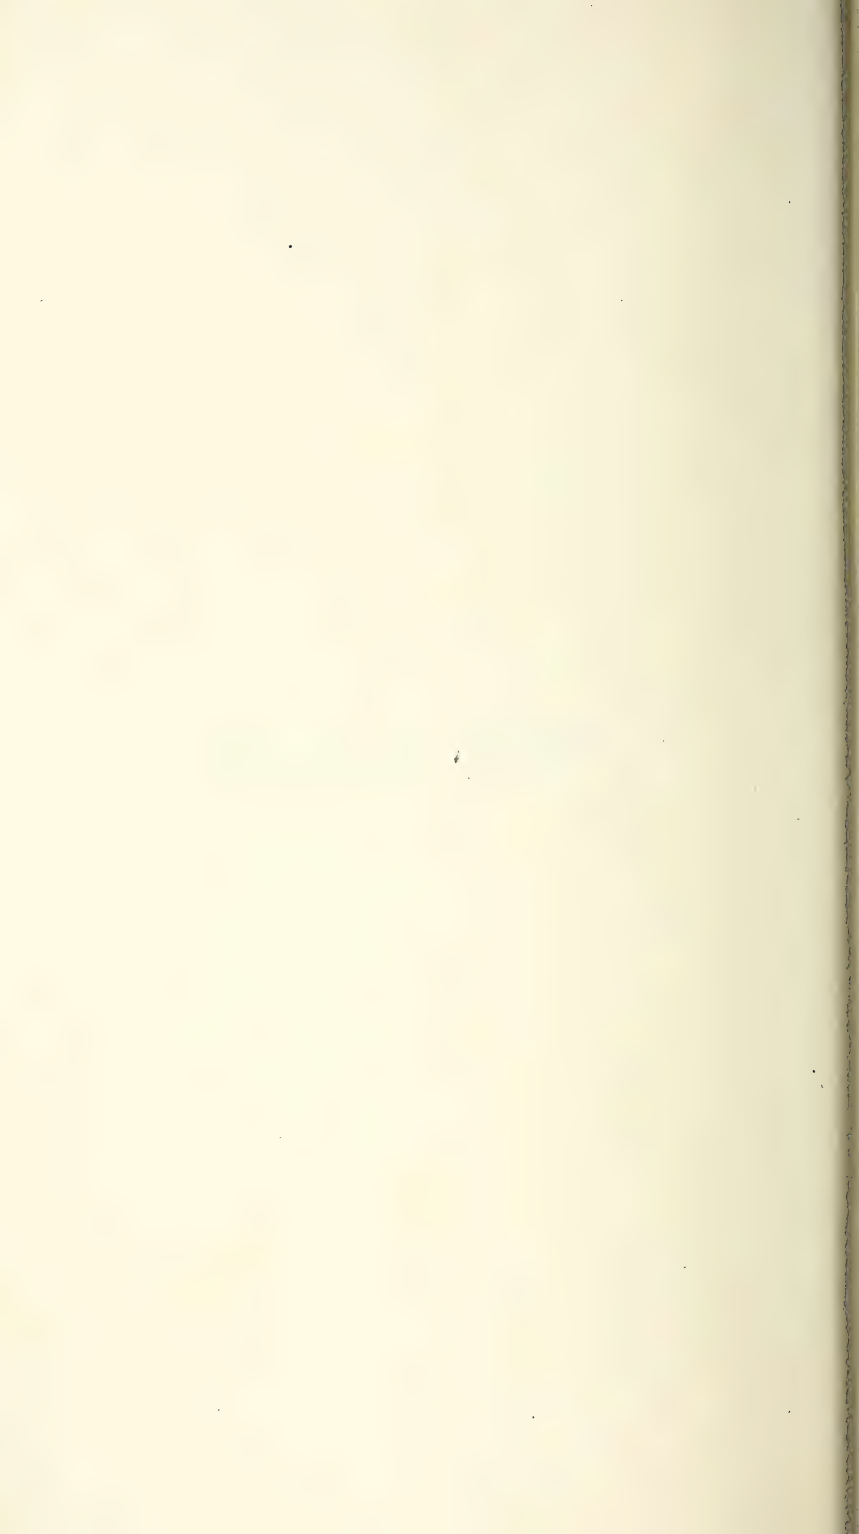

The death of JOHN A. BALCH occurred on the eighth day of December, 1907. For fourteen consecutive years he had faithfully served Antrim as Town Clerk, and had also been Selectman, besides filling other Town offices. To all these positions he gave his best attention, and the memory of his ability and faithfulness will linger long with those who knew him well. His death is a great loss to the town.

During the past year there have been an unusually large number of books loaned, especially to the pupils of the schools throughout the town, these have been chiefly of a scientific and historical nature with the works of standard authors used as supplementary reading.

There are between 300 and 400 regular library patrons and the weekly output of books averages over 100 volumes. There is a decided need of more books of reference for the use of students in town.

The library trustees after careful thought deemed it their best judgment not to purchase new books the past year, for two reasons, namely; that in view of the union of the Flint Library with the Antrim Public Library, to be known as the Tuttle Memorial Library, the patrons would

have access to a large number of new books, beside the probability of duplicating many books; and secondly a better and more satisfactory selection of the books most needed, could be made after the organization of the Tuttle Memorial Library was completed, than to purchase the books earlier and without knowing the real needs of the Library.

Several valuable books have been donated the Antrim Public Library by friends outside the town as well as by our townspeople, and these gifts have been greatly appreciated by the trustees as well as the regular patrons of the library.

There was never a better interest manifested by those who patronize the library than at the present time and the number of patrons has considerably increased in the past year.

Respectfully submitted,

SARAH M. ADAMS,  
BERT PAIGE,  
G. E. HASTINGS,  
Trustees of the Antrim Public Library.

Auditors.

## REMARKS

Since our last annual meeting, the school houses in Divisions 3, 4, 5, 6 and 7, have each had a second coat of paint (the first coat was put on last year) and the buildings in Divisions 1 and 3 have been shingled. This work, with a few minor repairs has used all of the money appropriated for this purpose.

In 1907, the school rooms in Division 1 were painted inside. We recommend that a sum of money be appropriated at the school meeting, to paint the inside of school rooms in Divisions 2, 3 and 4.

You will see in our Financial Report the sum of \$50.00 received for music. This sum was given, through the Superintendent, by some one unknown to the School Board, for the teaching of music in our schools. The conditions were that the School Board should appropriate \$50.00 more and engage a special teacher for music.

We deemed it advisable to accept the offer and are now teaching music under the supervision of a teacher who devotes one day each week to the Antrim schools. She is hired for the rest of the school year. It will also be noted that out of the \$250 appropriated for Superintendent's salary, we have used only \$187.50, having a balance of \$62.50 in our hands.

While we were able to make arrangements this

year for \$187.50, we may not be able to do so again. Therefore we advise appropriating \$187.50 for the coming year. This with the \$62.50 now on hand, will make \$250.00 available, if it is needed.

Respectfully submitted,

CHARLES F. BUTTERFIELD,  
HENRY A. HURLIN,  
CHARLOTTE M. HARVEY,  
School Board.

#### FROM THE SUPERINTENDENT

Members of the School Board :—

My third annual report is herewith submitted. As has been the custom I will make only a brief statement. I would recommend, however, that a longer report be provided for in the future, as more details of interest to the community could be incorporated.

The interest of the townspeople in their schools was well shown at the school exhibition held at the close of the winter term last year. A display of the work done by the children was made at a considerable effort on the part of the teachers. The numbers present, amply justified this effort.

In addition to a suitable supply of text books in all the subjects, including supplementary reading, we have begun to provide more dictionaries for each room,

also drawing paper and crayon for the development of this constructive form of expression by the children.

By the kindness of a friend of the school, we have been provided with half the amount necessary for the salary of a special teacher in music. Miss Helen D. Daggett, a graduate of the Weaver system of teaching music, is serving as our teacher for the year. Instruction is given by her each week, and by the teachers throughout the week under her supervision. The work has been put on a good basis, and is progressing in a very satisfactory manner. I think it will be continued, for music definitely helps the other work by giving rest for it, and it provides for a chaste and elevating expression of the conditions, thus having a distinctly moral influence. I doubt if any one other subject will give our pupils, in future life, more enjoyment or social advantage.

Our school work is of a very satisfactory character in many respects. The pupils are well behaved, industrious and obedient. Especially to be noted is the splendid attendance record of the Center Schools during the thirteen weeks of the Fall term. Attendance in the Grammar room was perfect, and there occurred only one tardiness for the term. The Primary record was nearly as good. I am glad to say that this record is only the natural result of the strong interest in their work shown by the pupils and teachers.

Below the High School two teachers resigned from service. Mrs. Florence Rice, of Grade nine, and Miss Ethel C. Duncan, of the East School. In the High School both Principal Newell and his assistant obtained other positions and were succeeded by Leroy M.

.

Handy, of Worcester, Mass., and Miss Gertrude Neville, of Woburn, Mass. Miss Alice Markey was appointed to Grade nine, and Miss Cora Coffin, of Boscawen, to the East School. All these have proved successful in their work.

One of the bills before the Legislature at the present writing proposes to give State aid to certain towns, of three dollars per week, for each teacher in service who is a Normal School graduate, or who holds a State certificate. Three of our present teachers are Normal School graduates. As at present situated, this would mean \$99.00 per year for each teacher, or \$297.00 for the three, to come to the district as State aid. If the bill becomes a law, strong effort should be made to require our grade teachers in the village, at least, to meet these requirements. A further provision of the bill will give us from two to three dollars per week of schooling, or about \$66.00 to \$99.00 annually on the basis of pupils' attendance. A still further provision would give the town State aid to the amount of four dollars per week, in addition to that now given, or \$132 to \$144 per year toward the Superintendent's salary if one is employed. This above would make the net cost to the town under the present arrangement something less than \$50 per year for supervision. Here would be an addition to our school funds of something over \$500.00 on our present basis by the passage of this bill.

The possession of this extra sum of money would enable the town to turn its attention to a further extension of the work of the schools.

Within a few years the town should adopt for the

High School, either an Agricultural Course or a Mechanic Arts Course. The former would directly help train the boys to remain on the farm; the latter would give the boy's training in wood and iron working. Such a course would train boys to become skilled workmen in our local industries, and would give a knowledge of tools and their use on wood or iron for the future farmer.

It would also be possible to unite under the same instructor, manual training in the grades. There is not space in a report of this kind to explain either course fully, or my reasons for preferring one of these to a Commercial Course. I shall be very glad to give a public discussion of these points whenever the interest will warrant it. I shall also be glad to discuss it with individuals. With a clear outlook of what is coming, we shall be able to avoid duplicating expense or of missing opportunities to provide for the future at much less expense by taking advantage of circumstances as they arise.

At our school exhibition held last winter, the townspeople came in large numbers in spite of the stormy night. I wish to express my appreciation of the courtesies received in this and other ways from the community, and to thank the teachers and School Board for their willing co-operation in this important phase of our civic life for which we are all responsible to future citizens.

I hand you herewith reports of the High School Principal, and the Supervisor of Music.

Respectfully submitted,

F. C. JOHNSON.

## FROM THE SUPERVISOR OF MUSIC

To the Superintendent of Schools :—

Music in the schools in Antrim is an innovation. To one who realizes the true value of music, this addition is most welcome. Music has real intellectual value. It requires concentration, form habit of accuracy, and as many are not used to hearing their own singing voices, it develops self control.

The singing of songs is really the aim of all music in the schools. But to sing songs well, the pupils must be able to read music accurately. This year I am convinced that the beginning of a good foundation in reading music has been laid, one that will last. The pupils have taken hold of the work in splendid shape. My teaching in Antrim, has been a real pleasure, made possible only by the hearty co-operation of both teachers and pupils.

Respectfully submitted,

HELEN D. DAGGETT,  
Supervisor of Music.

## FROM THE PRINCIPAL

Mr. F. C. Johnson, Superintendent:—

As one-half of the school year is over and the mid-year examinations completed, we feel more capable of judging the High School pupils' work than we should have felt ourselves capable of doing two months ago. The result of those examinations was in most cases very satisfactory.

We are glad to say that the attendance for the most part has been very good. We have had an average monthly attendance of about 94%. The pupils also have shown a willingness to work which is very encouraging.

At the beginning of the school year we had forty-three pupils enrolled upon our register. This is the largest number that the High School has had for some time and it is due to the fact that over 95% of the pupils attending school last year, returned this year.

The faculty of the High School was new at the beginning of the school year and of course the system of teaching was different from that of last year. It has been our effort and is still our aim, to give the pupil knowledge other than that which he gets directly from the text-book. Not that we would do away with the text-books; we must have them as a foundation, but we are trying to make the pupil think out things for himself. In other words, we are trying to have the students determine for themselves the cause and effect of things.

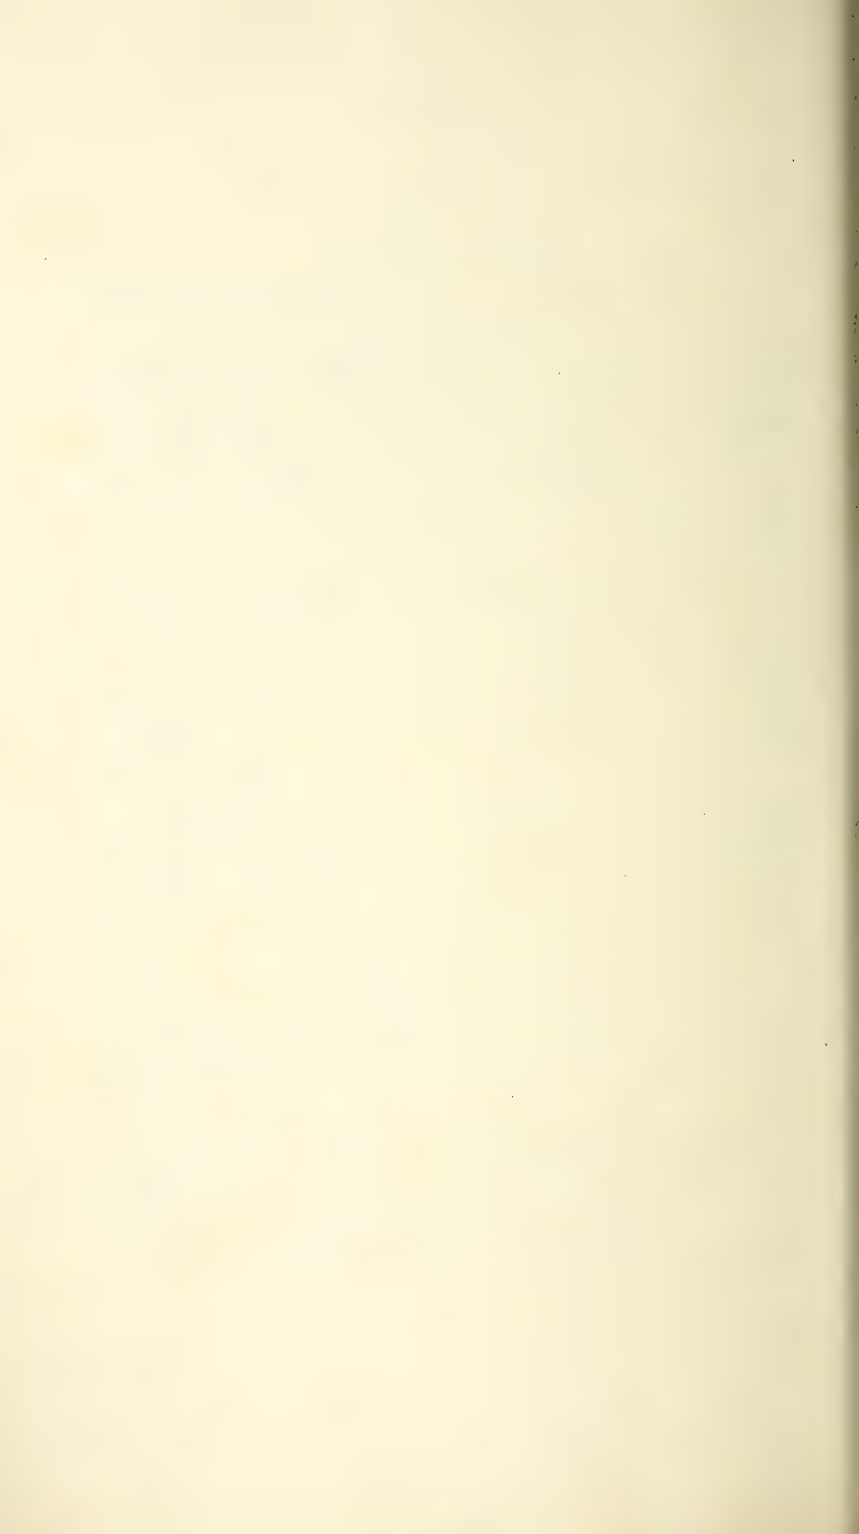

We have two courses of study, the Classical and the Scientific Course. About two-thirds of the pupils take this latter course, which is supposed to be the more practical. The Classical course meets the College requirements.

A few of the town's-people have been in to visit us and

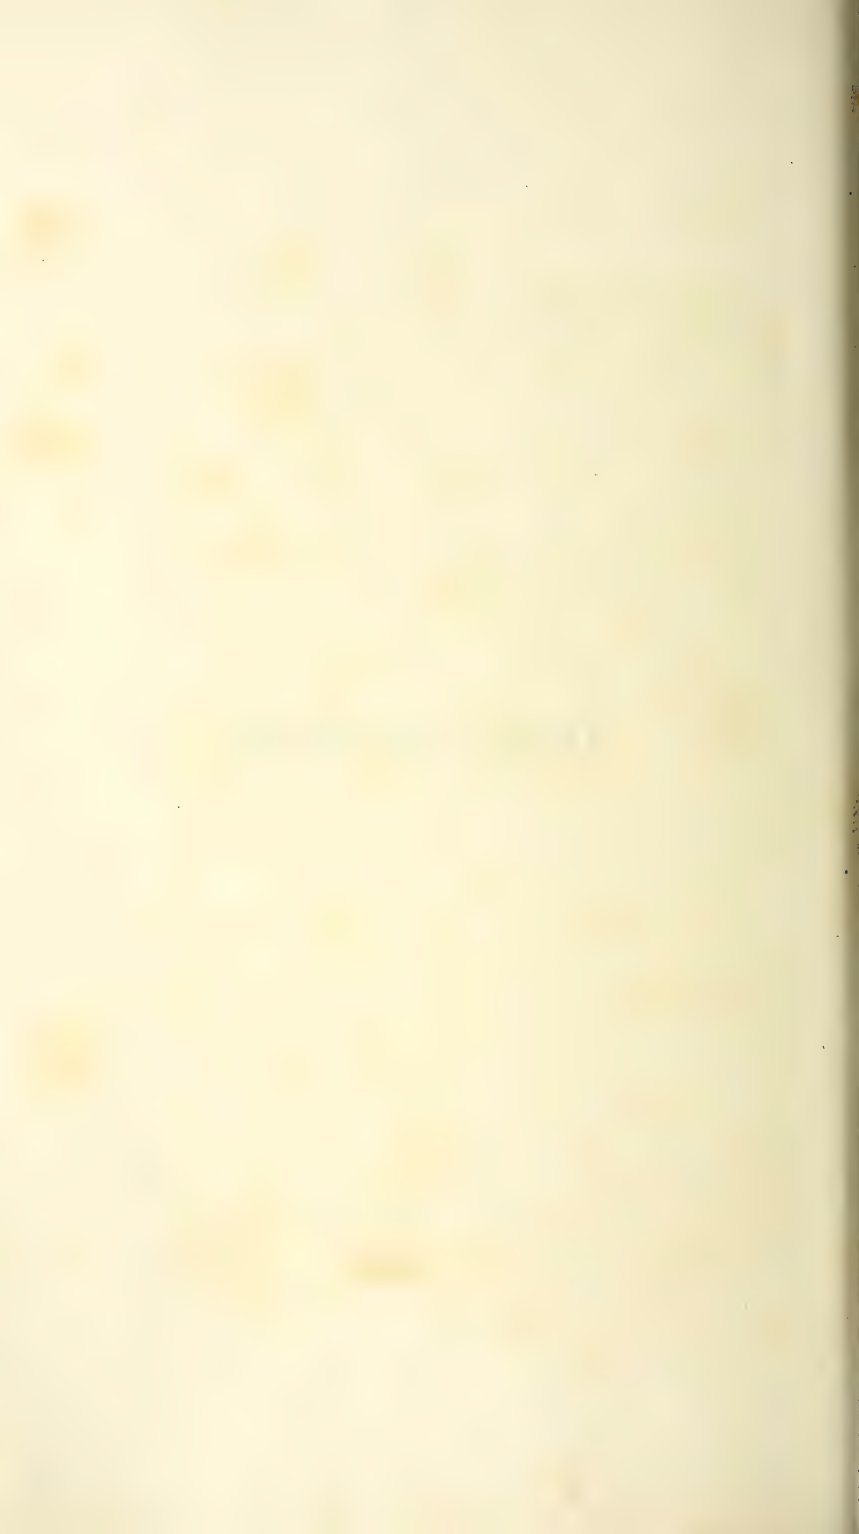

it is our desire that more of them should stop in and see what kind of work we are doing. Especially we invite the parents, whose co-operation we desire.

As our school is one of the approved High Schools of the state, it will be our constant effort to keep it as such. Much of the success that we have had is due to the good work and co-operation of each of the several teachers. We are also grateful to our janitor for his efficiency in caring for our building.

LEROY MARSHALL HANDY, Principal.

## LIBRARIAN'S REPORT.

Antrim, N. H., February 8, 1909.

Since the opening of the James A. Tuttle Memorial Library on July 11, the attendance has been most gratifying and interest continues to increase from week to week. Both reading rooms are well patronized on Tuesday afternoons as well as Saturday evenings and much interest is manifested by the students of the town schools to whom many books have been loaned for supplementary school work.

There has been a gradual change in the class of books loaned, the percentage of history, biography, science and travel is much higher than in previous years. A large number of works on history and travels are loaned each week to the members of reading clubs in town and the War Rolls, presented by the Town, are in great demand during library hours by those interested in the D. A. R.

Since the Tuttle library opened, the number of books loaned to February 1, was 3,955; the average number given out each week is a little over 141. The largest number loaned in one month was in August when 742 were loaned, the next highest number was 702, which is the record for January. There are over 620 who have taken out cards. The total number of books in the library is 4,403. Gifts of books have been received from the following: Hon. Wyman Kneeland Flint, Milwaukee, Wis.; Mrs. Kate Duncan Paine, New York City; Mrs. Edwin Parmenter, Boston; Miss Isabel Jameson, Miss Bessie C. Parmenter; Mr. Charles H. Martin, Antrim;

Miss Ethel Whitcomb, Roxbury, Mass.; Mrs. Sarah Boyd Camp, Connecticut; G. J. Turnbull, New York City; Hon. James Brennan, Peterborough; George Butum, Newton, Mass.

The tables of the reading rooms have been generously remembered by friends, the following have given magazines and papers which have been eagerly read from week to week by the children and young people of the town: Miss Emma S. McCoy, Mrs. Lucretia Shaw, H. Webster Eldredge, Mrs. Melvin D. Poor, Mrs. William E. Cram, Fred C. Parmenter, members of the local W. C. T. U., and Mrs. Edwin T. Adams. The "Scientific American," given by an unknown friend, is a welcome weekly paper that is much read by the young men of the town. Three handsome pictures have been received from an unknown friend and have been hung in the main and children's reading room. A pair of antique iron andirons over 100 years old have been donated the library by Mrs. G. E. Hutchinson and have been placed in the fireplace of the adult reading room. Several gifts have been received for the historical room of the library.

The interest in the library was never better than it is today and the young men and women of the town, as well as the older portion of the community are its regular patrons.

S. M. ADAMS,

Librarian.
